**INSTRUCTIONS:** Form FP-290 (Notification for Aboveground and Underground Storage Tanks) is to be completed for each location containing underground or aboveground storage tanks regulated under 527 CMR 9.00. If more than five tanks are owned at this location, photocopy the following pages and staple continuation sheets to the form. The FP-290 must be completed in duplicate. Although the form may be photocopied, the facility owner or owner's representative must sign each copy separately; photocopied signatures are not sufficient. Both copies of the FP-290 are to be forwarded to the local fire department, who will check all information and certify the forms. The fire department will retain one copy of the FP-290 for its records, and the facility owner shall be responsible for forwarding the other copy to the Dept. of Fire Services at the address above. The local fire department will issue the permit portion of the FP-290; however, registration is not complete until the FP-290 is received and checked by the UST Regulatory Compliance Unit. All questions on this form are to be answered. Incomplete forms will be returned.

1 "New Facility" means a tank or tanks located at a site where tanks have not been previously located.

2 "Facility street address" must include both a street number and a street name. Post office box numbers are not acceptable, and will cause a registration to be returned. If geographic location of facility is not provided, please indicate distance and direction from closest intersection, e.g., (facility at 199 North Street is located) **400 yards southeast of Commons Road** (intersection).

**GENERAL INFORMATION**

**Notification Required**

Fire Prevention Form FP-290 is to be used as Notification, Registration, and Permit for aboveground and underground storage tanks and tank facilities regulated under 527 Code of Massachusetts Regulations 9.00. No regulated aboveground or underground storage tank facility shall be installed, maintained, replaced, substantially modified or removed without a permit (FP-290) issued by the head of the local fire department. The owner of any storage facility shall within seven working days notify the head of the local fire department and the Dept. of Fire Services of any change in the name, address, or telephone number of the owner or operator of a storage facility subject to regulation by Chapter 148, Mass. General Law and by 527 CMR 9.00.

**Underground Storage Tanks**

Each owner of an underground tank first put into operation on or after Jan. 1, 1991, shall, within thirty days after the tank is first put into operation, notify the Department of Fire Services (the department) of the existence of such tank, specifying, to the extent known, the owner of the tank, date of installation, capacity, type, location, and uses of such tank. By no later than Jan. 31, 1991, each owner of an underground storage tank that was in operation at any time after Jan. 1, 1974, regardless of whether or not such tank was removed from beneath the surface of the ground at any time, shall notify the department of the existence of such tank, specifying, to the extent known, the owner of the tank, date of installation, capacity, type, and location of the tank, and the type and quantity of substances stored in such tank, or which were stored in such tank before the tank ceased being in operation if the tank was removed from beneath the surface of the ground prior to the submittal of such notice to the department. Such notice shall also specify, to the extent known, the date the tank was removed from beneath the surface of the ground prior to the submittal of such notice to the department. The operator of any tank that has no owner or whose owner cannot be definitely ascertained, shall notify the department of the existence of such tank, specifying, to the extent known, any information relating to ownership of the tank, and date of installation, capacity, type, and location of the tank, and the type and quantity of substances stored in such tank, or which were stored in such tank before the tank ceased being in operation if the tank was removed from beneath the surface of the ground prior to the submittal of such notice to the department. If the tank was abandoned beneath the surface of the ground prior to the submittal of such notice to the department, such notice shall also specify, to the extent known to the owner or operator, the date the tank was abandoned in the ground and all methods used to stabilize the tank after the tank ceased being in operation.

**Exception:** (a) a farm or residential tank of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes, or (b) a tank used for storing heating oil for consumptive use on the premises where stored are not required to be registered under 527 CMR 9.00.

**Penalties:** Any owner who knowingly fails to notify or submits false information shall be subject to a civil penalty not to exceed \$25,000 for each tank for which notification is not given or for which false information is submitted. (MGL Chapter 148, section 38H, 527 CMR 9.00)

**Aboveground Storage Tanks**

527 CMR 9.00 requires the registration of any aboveground storage tank which meets the following definition: a horizontal or vertical tank, equal to or less than 10,000 gallons capacity, that is intended for fixed installation without back fill above or below grade, and is used for the storage of Hazardous Substances, Hazardous Wastes, or Flammable or Combustible Liquids.

**Exception #1:** Aboveground tanks of more than 10,000 gallons capacity regulated by 520 CMR 12.00 (Requirements for the Installation of Tanks Containing Fluids Other Than Water in Excess of 10,000 Gallons) are not required to be registered under 527 CMR 9.00.

**Exception #2:** (a) a farm or residential tank of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes, or (b) a tank used for storing heating oil for consumptive use on the premises where stored are not required to be registered under 527 CMR 9.00.

**Penalties:** Any person who knowingly violates any rule or regulation made by the Board of Fire Prevention Regulations shall, except as otherwise provided, be punished by a fine of not less than one hundred dollars nor more than one thousand dollars. (MGL, Chapter 148, section 10B, and 527 CMR 9.00)

**Where to Notify?** Two completed notification forms should be signed by both the tank owner and the local fire department. One copy will be retained by the fire department, and the tank owner shall send a separate copy to the address at the top of this page.

**When to Notify?** 1. Owners of storage tanks in use or that have been taken out of operation must notify within thirty days.

**Owners and Operators of Regulated Storage Tank Systems must maintain records** certifying that all leak detection, inventory control and tightness testing requirements for the Regulated Storage Tank System are current. These records must be readily available for inspection.
